

Rahul Sundaram Contributes to Embedded Software Testing Book

AUTHOR Rahul Sundaram
PUBLISHED 27 February 2026

We are delighted to congratulate [Stephan Grünfelder](#) and [Adam Mackay](#) on the release of their book: Embedded Software Testing: Developing Reliable Software from Fundamentals to AI-Based Techniques

We are proud that [Rahul Sundaram](#), Partner at [INDIALAW LLP](#), contributed the legal perspective to the chapter on Software Testing and Liability Risk, sharing his expertise on product liability, risk management, and regulatory compliance under Indian law. As software becomes central to safety-critical systems, understanding legal accountability is more important than ever. A must-read for developers, testers, and legal professionals alike.

Embedded Software Testing

Developing reliable software from fundamentals
to AI-based techniques
